

# CROMAX BASECOAT

## THE INDUSTRY STANDARD IN WATERBORNE BASECOATS

We developed Cromax Basecoat in response to the demand for a high-quality, productive and environmentally-responsible basecoat for refinishing passenger cars.

Cromax Basecoat mixes concentrated tints with water-based binders to create a basecoat that exceeds the requirements of the 2004 EU Product Directive. It is suitable for markets around the world.

### MAIN BENEFITS

- Outstanding colour performance
- Ready-for-use from the mixing machine
- Wet-on-wet application
- Lead-free formulation
- Advantageous stock management
- Integrated system of primers, surfacers and clearcoats
- Constantly updated library of more than 30,000 solid, metallic and pearlescent colours

Our Cromax Basecoat combines a high opacity with a low material consumption for exceptional coating performance. The versatile application and wide colour range make Cromax Basecoat an ideal tint system.
